

## Sreenshots from our Deployment

Our images have been successfully builded in the Azure Devops pipeline

## Our images in the Azure Cointainer Registry :

## Overview from web app service:

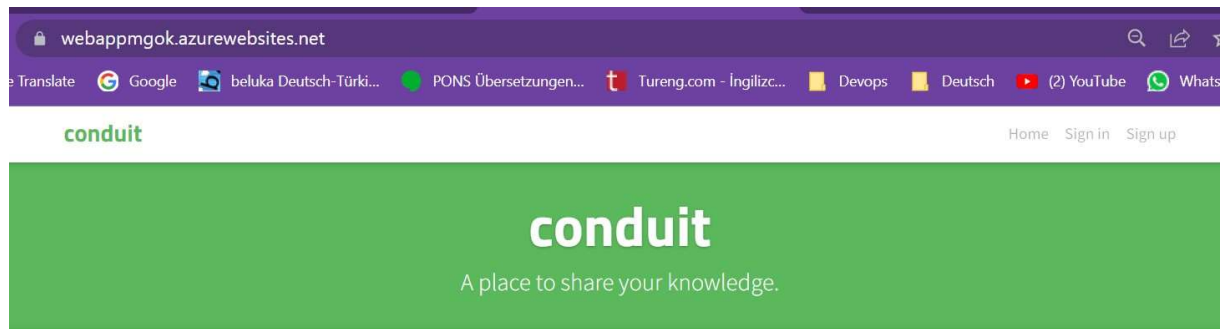

Webb app service created and our images successfully deployed.

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the Microsoft Azure logo, a search bar, and the user's profile 'mustafa.gok'. The left sidebar shows the navigation menu with categories like Overview, Activity log, Access control (IAM), Tags, Diagnose and solve problems, Microsoft Defender for Cloud, Events (preview), Deployment, and Settings. The main content area displays the 'webapppmgok' Web App overview. The 'Essentials' section provides key information: Resource group (mustafa-dev), Status (Running), Location (West Europe), Subscription (Azure subscription 1), Subscription ID (baa43e7b-5052-4045-95c6-5c893d7aef8c), URL (https://webapppmgok.azurewebsites.net), App Service Plan (ASP-gokmusdev-8502 (F1: 1)), Operating System (Linux), and Health Check (Not Configured). The 'Tags' section shows 'env : dev'. The 'Properties' section lists the Web app name (webapppmgok), Publishing model (Container), and Container Image (gokmushub.azurecr.io/reactredux).

The screenshot shows the Microsoft Azure portal interface for the 'webapppmgok' Web App's Deployment Center. The top navigation bar includes the Microsoft Azure logo, a search bar, and the user's profile 'mustafa.gok@deop.ca'. The left sidebar shows the navigation menu with categories like Overview, Activity log, Access control (IAM), Tags, Diagnose and solve problems, Microsoft Defender for Cloud, Events (preview), Deployment, and Settings. The main content area displays the 'webapppmgok | Deployment Center' page. The 'Activity logs' section shows a list of deployment events. The 'Production' environment is selected, showing a 'Release 6' status. The deployment history includes three successful deployments to production, each with a timestamp and release information.

Activity logs	Production
6.2.2023	Release 6
Deployed successfully to production Build 20230129.1 Release 6	01:26
Deployed successfully to production Build 20230129.1 Release 5	00:41
Deployed successfully to production Build 20230129.1 Release 5	00:19
